June 2021								

## Training Calendar Descriptions

January 2021	
<p><b>01/19/2021</b></p> <p><b>Exploring Social Emotional Development within the Context of Relationships</b></p> <p><b>*Virtual</b></p>	<p>Through supportive relationships, infants and toddlers develop a sense of trust, learn how to interact with others, and how to eventually express empathy. Strong, nurturing relationships are key to healthy development for infants and toddlers. This professional development event will explore social emotional development within the context of relationships. Participants will learn how the process of getting in tune with children allows providers to offer responsive care, which in turn helps infants and toddlers form secure relational attachments. Secure and responsive relationships help young children to develop a strong foundation from which they can explore their environment. (DCDEE 3, 7)</p>

**February 2021**

<p><b>2/11/2021</b> <b>Safe Handling of Children</b> <b>*Virtual</b></p>	<p>In this training a better understanding will be given on the safe handling of children. Participants will learn what rules DCDEE has laid out for this topic, the types of injuries that can occur if inappropriate handling does occur and the repercussions that could occur if accidents/injuries occur. Participants then will have an overview of appropriate handling methods and ways to redirect children or move children from place to place while meeting their developmental needs.</p>
<p><b>02/23/2021</b> <b>Supporting Developmental Monitoring and Screening in Early Care and Education Settings</b> <b>*Virtual</b></p>	<p>We know that monitoring and screening in early childhood early care and education settings is critical to identifying children at risk for developmental delays. What is less known is how programs use developmental monitoring and screening tools and ways caregivers talk with families about their children's growth and development. This training will help participants understand the differences in developmental monitoring and screening and why they are so important to children and families. Participants will learn how they can track and celebrate children's milestones and strategies for collaborating with families on supporting children's healthy growth. You can play an essential role in our state's early intervention efforts!</p>
<b>March 2021</b>	
<p><b>03/18/2021</b> <b>ITS SIDS</b> <b>*Virtual</b> <b>Could change per DCDEE regulations</b></p>	<p>Infant/Toddler Safe Sleep and Sudden Death Syndrome Risk Reduction in Childcare. Mandatory for caregivers of children 0-12 months every 3 years</p>
<b>April 2021</b>	
<p><b>04/24/2021</b> <b>Playground Safety</b> <b>*Virtual</b> <b>Could change per DCDEE regulations</b></p>	<p>Learn key concepts of playground safety, test for hazards and identify general maintenance requirements</p>
<p><b>04/27/2021</b> <b>Leading the Way: Implementing High Quality Infant/Toddler Care</b> <b>*Virtual</b></p>	<p>No matter what our role is in child care, we share a common goal: to provide quality group care for infants and toddlers. But what does that look like? In this training, we will discuss evidence-based practices and policies that support the high-quality infant toddler care we strive to provide. As we discuss quality infant- toddler care practices and how different programs approach implementing these practices, we'll reveal the benefits for children and their caregivers. We will look at six essential program policies that support relationship- based strategies in child care and examine your beliefs and philosophy as they relate to evidence-based quality group care.</p>

**May 2021**

<p><b>05/18/2021</b></p> <p><b>Getting Started Improving Quality with the ITERS-R</b></p> <p><b>*Virtual</b></p>	<p>Would you like to gain a better understanding of the Infant Toddler Environment Rating Scale? Discover how to use the ITERS-R as a self-assessment tool to maintain quality long after the assessment is over. This two-hour training provides an overview of the ITERS-R. This training will explain the seven subscales' organization used to evaluate programs, the scoring system, and what programs can expect before, during, and after an assessment. (DCDEE 1,5,8)</p>
